BSB FINDS

Another good harvest. The 2010-11 recoveries of BSB material has significantly improved representation of the short-lived satellite network's music programming. For this, my thanks go to sound supervisor Keith Mayes who kept a number of editions of Into the Groove.

I'm also delighted to announce the recovery of several comedy programmes which never received a transmission. This was because of the merger and change of management in December 1990, which happened to coincide with the studio recordings of the full series of Heil Honey, I'm Home and Chris
